The Philippine Statistics Authority (PSA) established through Republic Act No. 10625, otherwise known as the Philippine Statistical Act of 2013, is tasked, among others, to compile and maintain macroeconomic accounts and indicators, at the national and subnational level.

The Provincial Product Accounts or PPA has been the mechanism of the PSA to compile the annual estimates of Gross Domestic Product by province/HUC, consistent with the National and Regional Accounts of the Philippines. In 2023, all provinces and HUCs of Caraga started to implement the PPA, together with other pilot regions. As of 2023, there are a total of 82 provinces and 17 HUCs compiling the PPA.

Full data series, charts, and data visuals of PPA Caraga can be accessed at the PPA landing page of the PSA (psa.gov.ph/statistics/ppa), and the PSA Regional website (rssocaraga.psa.gov.ph/statistics/ppa).
