

AQUACULTURE FISHERIES SITUATION REPORT

October to December 2024^p

Release Date: 14 May 2025

Reference Number: 2025-005

VOLUME OF PRODUCTION

62.95 
 (in metric tons)

A -70.4 PERCENT LOWER THAN THE 212.48 METRIC TONS RECORDED IN THE FOURTH QUARTER OF 2023.

VALUE OF PRODUCTION

17,889.21 
 (in thousand pesos)

A -85.3 PERCENT LOWER THAN THE 121,653.28 THOUSAND RECORDED IN THE FOURTH QUARTER OF 2023.

TOP SPECIES BY VOLUME AND VALUE OF PRODUCTION

KIND/SPECIES	VOLUME			VALUE		
	(in metric tons)	percent change (2024 P/ 2023)		(in thousand pesos)	percent change (2024 P/ 2023)	
 Milkfish (Brackish Water Fishpond)	27.50	-62.8 %		4,428.33	-61.0 %	
 Mudcrab (Brackish Water Fishpond)	4.75	-74.6 %		3,392.12	-78.5 %	
 Tilapia (Freshwater and Brackish Water Fishpond)	2.49	-48.5 %		360.44	-58.5 %	
	1.50	-83.8 %				
 Spiny Lobster (Marine Pen and Marine Cage)	1.40	-50.5 %		2,225.50	-14.4 %	
				1,276.62	-98.3 %	
 Tiger Prawn (Brackish Water Fishpond)	1.06	-96.7 %		440.18	-96.1 %	

• Spiny lobster (marine cage) volume is too low for aquaculture species ranking.

• Tilapia (brackish water fishpond) value is too low for top aquaculture species ranking.
