FOREWORD

The Philippine Statistics Authority (PSA) releases the 2018 to 2022 Provincial Product Accounts (PPA) of 82 provinces and 17 Highly Urbanized Cities (HUCs) in the Philippines.

The PPA serves as the mechanism of the PSA to measure the performance of the economy of the provinces and HUCs. Aligned with the National and Regional Accounts of the Philippines, the Gross Domestic Product (GDP) of the provinces and HUCs are compiled at the production side. Since 2021, the GDP of the provinces and HUCs are compiled and released annually for selected pilot regions and presented by province and HUC, and by industry. These are valued at current prices and constant 2018 prices.

Spearheaded by the Macroeconomic Accounts Service and in coordination with the Regional and Provincial Statistics Offices, the compilation of PPA is implemented in 16 regions in 2023, except for the National Capital Region, which is scheduled for pilot implementation in 2024. By 2025, the PPA is programmed to be institutionalized to ensure annual compilation for all provinces and HUCs.

The PSA would like to acknowledge the support of different government agencies, local government units, and private sector in providing data and information for the compilation of PPA. We hoped that these statistics on the performance of provincial economies would guide our stakeholders for an evidence-based policies, programs, and projects, especially at the local level.

We welcome comments and suggestions from our data users, clients, and stakeholders for the improvement of this report.

DIVINA GRACIA L. DEL PRADO, PhD
Assistant Secretary
Deputy National Statistician
Sectoral Statistics Office

OVERVIEW OF PROVINCIAL PRODUCT ACCOUNTS

The Philippine Statistics Authority (PSA), which is the central statistical authority of the Philippine government, is primarily responsible for all national censuses and surveys, sectoral statistics, consolidation of selected administrative recording systems, and compilation of national accounts. This mandate of the PSA is stipulated in Section 5 of the Republic Act No. 10625, otherwise known as the Philippine Statistical Act of 2013.

The Macroeconomic Accounts Service (MAS) under the PSA is responsible for developing and maintaining national accounts, regional accounts, satellite accounts, input/output tables, and other related macroeconomic accounts. Presently, the PSA regularly releases quarterly, and annual national accounts estimates, while annually for the regional accounts estimates. These economic accounts are widely used for policymaking, analyses, and research purposes. Evidently, the demand for subnational disaggregation of these economic accounts is increasing. This brings forward the PSA to undertake another statistical milestone – the Provincial Product Accounts (PPA).

The PPA is a mechanism to compile the Gross Domestic Product (GDP) using production approach at the subnational level. The GDP measures the value of all final goods and services produced within an economy in a given period of time. Consistent with national and regional accounts, the PPA follows the System of National Accounts framework for compiling the GDP at the subnational level. Through the PPA, the GDP of the provinces and Highly Urbanized Cities (HUCs) will be compiled, which can be used by economic planners, policymakers, and other stakeholders in assessing the performance of local economies, policy formulation and monitoring, impact analyses, among others, for an evidence-based decision making.

The PPA is planned to be institutionalized in all provinces and HUCs in the country by 2025. It commenced in 2021 with three pilot regions (MIMAROPA Region, VII, and X). Then another six pilot regions (Cordillera Administrative Region, CALABARZON,

VI, VIII, XI, and XII) were onboarded in 2022. Seven pilot regions (I, II, III, V, IX, Caraga, and Bangsamoro Autonomous Region in Muslim Mindanao) were added in 2023, and the National Capital Region in 2024. By 2025, it is envisioned that all provinces and HUCs in the country are already compiling their PPAs.

Recognizing the importance of PPA, the PSA Board, the highest policy-making body on statistical matters, approved a resolution titled “Enjoining Government Agencies, Local Government Units, and Private Sectors to Provide Data Support in the Generation of Provincial Product Accounts” (PSA Board Resolution No. 04 series of 2021).

Since its inception, various activities have been undertaken, including briefings and consultation workshops with stakeholders, training on standard classification systems, data collection and validation, and trainings on the SNA. Equally vital are the coordination mechanisms in place, such as the Regional Statistics Committees and Provincial Statistics Committees, which brought together major stakeholders in the regions and provinces to support the compilation of PPA.

The annual release of the PPA results for its pilot provinces and HUCs marks as a significant milestone, not only for the PSA but also for the entire Philippine Statistical System, addressing the demand of subregional accounts.

HIGHLIGHTS OF PPA SURIGAO DEL NORTE

Surigao del Norte's Economy Posts 4.8 Percent in 2022

The Gross Domestic Product (GDP) of Surigao del Norte, estimated at PhP 78.38 billion, posted a growth of 4.8 percent in 2022. This is slower than the 7.4 percent growth recorded in the previous year. (Figure 1)

Figure 1. Annual GDP of Surigao del Norte, 2019 to 2022
Levels (in Billion PhP) and Growth rates (in Percent)
at Constant 2018 Prices

Source: Philippine Statistics Authority

Among the major industries, Services and Industry posted growths of 9.0 percent and 2.1 percent, respectively. Meanwhile, Agriculture, forestry and fishing declined by 14.7 percent. In terms of industries, Construction, Transportation and storage, and Accommodation and food service activities recorded the fastest growths of 29.1 percent, 14.1 percent, and 13.7 percent, respectively. (Table 1)

The Philippine Statistics Authority (PSA) established through Republic Act No. 10625, otherwise known as the Philippine Statistical Act of 2013, is tasked, among others, to compile and maintain macroeconomic accounts and indicators, at the national and subnational level.

The Provincial Product Accounts or PPA has been the mechanism of the PSA to compile the annual estimates of Gross Domestic Product by province/HUC, consistent with the National and Regional Accounts of the Philippines. In 2023, all provinces and HUCs of Caraga started to implement the PPA, together with other pilot regions. As of 2023, there are a total of 82 provinces and 17 HUCs compiling the PPA.

Growth Rate of the Economy

4.8%

The economy of Surigao del Norte grew by 4.8 percent in 2022, with GDP value estimated at PhP 78.38 billion from PhP 74.82 billion in 2021.

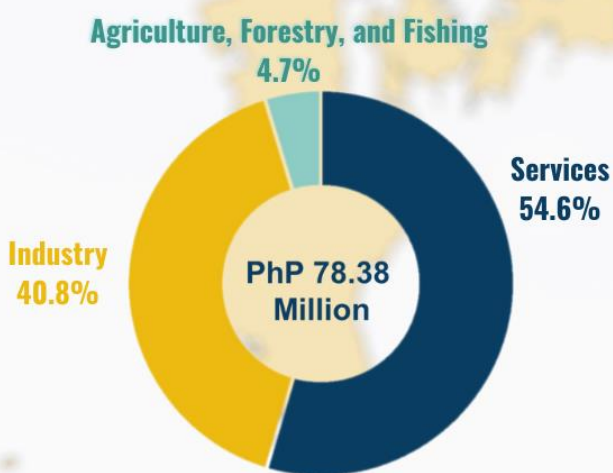

2021 to 2022: Estimated at PhP 78.38 Billion

Largest Share to Region's Economy: PhP 323.86 Billion
